

TREE OF LIFE CHURCH

COVID 19 Return to On Campus Services Protocol Summary

Phase 1: Month of June

Schedule

- Wednesday Evening: Online only
- Sunday Morning: Two Identical online and on campus services at 9:30 & 11:30

What precautions are being taken for On-Campus Services?

- We are dedicated to providing a clean and safe environment for all worship service attendees.
- We will practice physical distancing at all times.
- Two Identical Sunday morning services will enable us to limit our crowd capacity to 50% of our fire code capacity.
- We recommend, but won't require, wearing a face mask when entering and exiting the building.
- Our Welcoming Team (ushers, greeters, security, and Connect Point team) won't be shaking hands or making physical contact. We will be smiling and very intentional to make sure every attendee feels welcome.
- Hand sanitizer will be available throughout the building.
- There will be no children or youth classes for any age group.
- We will not have a staffed nursery. The fellowship hall will be available for mothers with young children as well as the sanctuary level nursing room.
- We are asking families to sit together. There will be no children or youth specific seating areas.
- We will have a modified offering process to avoid passing the offering plates.
- At dismissal, please limit fellowship after service so we can sanitize the building and quickly transition for the next service.

Should I attend?

We encourage you to follow recommendations from health professionals and make the best decision possible for your family. Take the precautions that you feel are necessary. We will support the decision you make.

Please take extra precautions if you fall within the following categories:

- You are over the age of 65 and have a compromised immune system.
- You currently suffer from cardio-pulmonary disease.
- You have a pre-existing health condition.

We are also asking that you please stay home under the following conditions:

- If you are exhibiting any kind of symptoms of sickness or viral infection.
- If you have a fever with a temperature over 100F degrees.
- If someone in your home has symptoms or a fever.

Will live streaming still be available?

Yes! If you need to stay home as a precaution or due to sickness, our media team will continue to provide a high-quality live stream of our services. You can worship with us, stay connected to your church family, and financially support our church through the website, app, and/or social media.
